WALL PANELS

Coal

A wall panel in “Shou Sugi Ban” look, but without soot residue; unlike the increasingly popular charred façade elements, “Coal” wall panels are embossed by machine and then treated in several stages with black oil. The result is a simple but exciting look, from a technique which can also be recreated in colours from gold to black.

Surface „Coal“ | Silver fir rift & quarter-rift wall panels | Solid wood

Thickness x Width	20 x 130 mm
Length	2.30 m
Double end profile	Yes
Quality	No knots or small knots, occasional cracks or knotholes
Wood moisture	KD 12% +/- 2
Weight	460 kg/m ³
Surface treatment	Embossed and oiled with hard wax oil
Planing	Visible side
Application	Interior and exterior
